Extract from His Opinion in the Case  
Horie vs. Trott.

"On the whole, then, I am of opinion that the pro-  
vision of the act of Congress of February 28, 1863, in  
which the note held in the name of the United States  
is to be lawfully issued, and a note issued in the  
name of the United States, is unconstitutional."

The defendant in this case, I should say, is entitled to a new trial.

THE DEFENDANT IS UNCONSTITUTIONAL.

NEW YORK, Aug. 20. The Herald's Naipe corresponded at Pittsburg last says: During the whole of last week, while the American excursion steamer Oakley City lay at Leoghen, a Gavarene gunboat was anchored by and a vigilant watch was kept upon her. Victor Emanuel's people refused to believe that the excursionists were other than Garibaldini conspirators. When any of the pleasure seekers alighted from the ship after nightfall they were followed by the crew, and on one occasion the executive of the ship, Capt. Burley and several passengers narrowly escaped arrest. The excursionists will be speedily watched in Rome.

WASHINGTON, Aug. 20. A meeting of about thirty members of the bar was held to-day. F. P. Stanton, President, and adopted resolutions disapproving the irrigation bill, reviewing orders of courts, asserting it was an error to suspend the rights of attorney's court by the legislature, and the propriety of courts punishing contempt. This action refers to the Bradley-Bishop difficulty.

General Sickles, on the 14th, had approved the process of the Circuit Court of the United States, heretofore stopped by order of the bar, with instructions to follow the name of any court interfering, in order that he may be presented with a copy of the law of the United States. General Edward P. Cooke, commanding under orders from the district commanders, had again interceded to prevent the execution of the process as being in violation of General Order No. 10.

A regular meeting of the Common Council  
will be held this evening

— Senator Sumner is to utter a "Prophetic  
Volley About America," in the next Atlantic.

— A special meeting of Sugawau Lodge, I. O. G. T. will be held this evening. A general at-  
tendance is required.

— They are said to be the Clinton Dem-  
ocrat, over three thousand men in Clinton county  
who do not take a newspaper.

— A new post office has been established at  
Cunningham, Clinton Co. E. M. Edgewick  
has been appointed postmaster.

— Mr. A. H. Higham, for many years the agent  
of James Tarr, on the Tariff, has, after a  
lengthy vacation, returned to the same position.

— I am going to the post office, John, shall I  
enquire for you?" "Well, sir, if you have a  
mind to, but I don't think you'll find it there."

— Rev. Wm. Hoots, 88, member of the Luther-  
ian Church, died at Lancaster, on Saturday, in  
the 81st year of his age.

— G. W. Colton, late Prothonotary of Erie  
county, is announced as a candidate for the Sen-  
atorial nomination vs. Mr. Lowry.

— The new mail arrangement between this city  
and Meadville 'on Franklin, will take effect to  
day. Captain W. W. Gray is the mail agent.

— A youth of nineteen summers, residing near  
Titusville, died last week at a Judy of some  
fifty winters, who lived up to 88. He is to be buried  
the last day of August.

— The Williamsport Standard announced  
that they will hold on the 10th of August, a  
meeting of the grand singing festival ever held in  
the interior of the State.

— The Common Council of Titusville have ac-  
cepted a formal meeting invitation to the grand  
ball and banquet at the Hotel House Hotel on  
Thursday.

— The Hotel House is still producing about  
sixty barrels a day, and having a full out-  
fit of the most lasting in the oil region, being now  
in its fifth year.

— The Pennsylvania Canal Company have made  
a survey of the canal and river from Butlerburg  
and Huntington, with a view to adapting the  
water to slackwater navigation.

— Titusville has just received a fine racing, and  
a trial of the machine was had on Friday even-  
ing. Titusville has received a second steam  
engine. The fire department there is now  
on a first class footing.

— The Democratic journals don't largely in the  
caption. Out of them Mr. St. John, a "low  
man," and in the next sentence, secures him of  
"riding the high horse." A note on horseback  
would be a remarkable sight.

— On Sunday, the 11th inst., the office of John  
Farnsworth, the County Treasurer of North  
Unionland county, was forcibly entered and  
robbed of \$150, which was deposited in the money  
drawer of his table.

— Hard & Co., at the post office, have received  
Goddy's Lady's Book for September. Its fashion  
plates and decorations, are, as usual, gotten up  
with the best artistic skill, and it is, as it pur-  
ports to be, a lady's book in the best sense of the  
term.

— Whittemore the Philanthropist, moreover un-  
der sentence of death, is a "spiritualist" and re-  
fuses to see any minister, saying that he knows  
as much of the other world as they do, having  
been there. He will probably feel differently  
when it becomes his permanent residence.

— An enormous mass of ratcatchers was dis-  
covered at Cabot Hill, Corinthian township,  
Venango county, on Friday last, and forthwith  
attacked by a number of men with fire arms.  
Nineteen skunks were killed and six captured,  
the latter averaging between four and five feet in  
length.

— The Widow McClinton or Saco farm re-  
main wholly idle. Not a single well is being  
operated. It is now the property of Mrs. Steele.  
We fear that "Johnny," her wayward husband  
who has spent two millions of dollars, don't like  
to go to work again.

— William Richardson, of Franklin county, O.,  
one hundred and four years old. He is the  
survivor of five wives, and is now living with  
the sixth. He is the father of twenty-five chil-  
dren by two of his wives—twenty-one are living  
it seems about nine that William got out of the  
way, and gave the rest of the Buckyeyes a chance.

— Mr. D. Bligh and daughter, while riding to  
gather at Conneautville, last week, were unex-  
pectantly baptised in the canal by the horse  
backing off into it. They were relieved from  
the uncomfortable predicament without personal  
injury. As both are members of a "sprinkling"  
denomination, it is hoped this unexpected "in-  
unction" will not work a change of faith.

— A girl about seven years of age was found  
in the blackberry woods, near Lockawanna, Pa.,  
on Sunday last, dead. She had gone out on  
Saturday before to get berries, and not returning  
at night was suspected. When found the body had  
marks of seventeen stings of mites.

— J. S. BETTERCOURT

ROCK'S scissors, and Sheena & King's razors  
at B. M. Hard's

— Base ball is being heartily throughout the  
oil region, sparing neither age nor condition.  
We eat base ball, talk it, and act it. The other  
night one of the deacons of a church in Franklin,  
winding up a petition to the Throne of Grace,  
said "Oh, Lord, as we start for a home run to  
Glory, don't let us by the devil be caught out on  
the fly!"

— The Cincinnati Commercial says of a forth-  
coming prize fight: "The managers of the affair  
intend to so conduct it that it shall not reflect  
any disgrace upon our city. We are glad to  
hear of a model privilege. It should take place  
in the city hall, with the Common Council form-  
ing the ring, the Police Justice holding the  
stakes and the Mayor acting as umpire."

— Morris E. Mathews, late of Co. A, 3rd Pa.  
Vol., and Lieut. Fowler, late a musician in the  
15th Pa. Vol., are horridly surprised that their ad-  
ditional bounty of \$100 is awaiting them at the  
American Express office in this city. The boun-  
ties were obtained through the National Club  
agency of S. T. Duryea, of Erie. Call and get  
your stamps, boys.

— The Eric Dispatch, in its report of Council  
proceedings, says: "The Secretary read a report  
stating that the terms of advertising the City  
Bonds in the New York Herald for one month  
had been procured, and the amount asked for  
two squares was \$6400 cash in advance. After  
a gaudy silence of two minutes, the Council im-  
mediately resolved that 'this establishment does  
not advertise in the New York Herald.' They  
could do better in Titusville if they only knew  
it."

— General McFarland, in a letter received yes-  
terday, replying to a request to extend the time  
to decide whether Titusville shall have the Or-  
phans' school, says: "I am willing and anxious  
to do all that is possible to aid you, notwithstanding  
the pressure that is urging me to have some  
children, already deprived of valuable time, are  
about 10 years of age, when the State must needs  
be promised a school by September 1. If, how-  
ever, your citizens will decide to take the  
school, so that I can issue certificates of admis-  
sion and thus establish the members, I will agree to  
give you to October 1 next to formally open the  
school. I do not, however, let the final deter-  
mination to provide a school remain much longer  
than as I desire to do so personally justice to  
other parts and to the orphans unprovided for  
here."

— The Great Rain Storm

Our exclusive editor is burdened with accounts of  
the disastrous storm which act in on Thursday  
last and traversed so large a section of country.

This region was subjected to a slight visitation,  
as compared with other localities, and the heavy  
rain of Sunday appears to have been but a sprinkling  
termination of the immense floods which  
descended elsewhere. The storm extended all  
over the country from Maine to Georgia, and  
the cable telegrams state that it was raining  
heavily in all parts of England. In some parts  
the storm raged with great fury, — the streams  
were swollen beyond their banks, sweeping away  
bridges, embankments, and doing  
incalculable damage to the standing crops. Rail-  
way travel was in many places interrupted, and  
in cities, cellars and basements were flooded.  
In Philadelphia alone, the amount of damage is  
estimated at \$100,000. In the central portions of  
the State it was equally severe, and in the rural  
districts no much change. The corn, when  
floods over where were much washed by the rushing  
waters, particularly those freshly ploughed, or  
on undulating grounds, were much injured by  
the valuable damage to the standing crops. Rail-
